Dear Friends and Families around the Globe,

Welcome to the Official Annual Newsletter-2019 of Mission Himalaya. We would like to wish a very Happy New Year-2020 to all of you. We would like to express our profound gratitude from the bottom of our hearts for all your love, support and cooperation. May your love be bestowed upon us in this way and we will also continue to work for the welfare of the needy children and people of the country. We pray that the New Year 2020 will bring good health and greater happiness to all of us and will take our partnership to greater heights.

- Bibhu C. Thakur
Founder Chairman
And Mission Himalaya family
New Solar Vegetable Dryer:

We have purchased a new Solar Vegetable Dryer with the financial support of our long-term donor and supporter, Dooley Intermed International and Metabolic Studios, USA. The Solar dryer is made from stainless steel and has the capacity to dry 15kgs of green vegetables at one time. Now, it’s been useful for us to dry surplus vegetable and store them for future use.
New Cupboards:

We would like to thank Mr. Mayank Dhingra for his generous financial support to build a new wooden cupboard at our Eco Home. The size of the cupboard is as follows: 14.5 length, 3ft width and 5 ft height. This cupboard was built on top of the iron plate covering the staircase after the segregation of the boy’s and girl’s section. The space remained unused so we came up with the idea of setting up a big sized cupboard for storing multiple stuffs. Thank you, Mr. Mayank!

Children’s Outing:

Our respected volunteers’/ guests from Air Intermed International, USA took our children for a day lunch trip to Balthali Eco Hill Resort at Balthali village, Kavre. They hiked for around 1 & ½ hrs from Eco Home to Balthali and enjoyed hot lunch offered at the hotel. They get such opportunities quite frequently with the support of our guests and well-wishers. The children love and enjoy such trips.

Hallooween Celebration:

Our children, for the first time, celebrated Halloween day with our Guests/ Volunteers from Air Intermed International. They painted their faces, wore masks and dressed up for the occasion. They enjoyed Halloween very much and was indeed a new experience for them. Our thanks go to our valuable guests’/ volunteers for all the arrangements they had made for the celebration.
**Christmas Celebration at the ECO HOME**

Our children celebrated Christmas-2019 with the fund provided by Ms. Choe Wan Teh and her sister Teh May Wan from Hongkong. They celebrated the occasion with cakes, lots of chocolates and delicious meals. They enjoyed it very much and we are extremely happy to have been able to organize the event. Thank you, Ms. Choe, and Ms.Teh May.

---

**Volunteers and Guests visit:**

Many valuable guests, donors, supporters and volunteers keep visiting our Eco Home from time to time. It is always a pleasure to welcome them. This time also we were visited by valuable guests. We would like to thank Airlines Ambassador International and Dooley Intermed International especially for providing us the opportunity to welcome those kind hearted people. Our sincere thanks go to Mr. Robert Walter Swegler Jr., Mrs. Carol Marie Hibbert, Mrs. Mary Wotanis, Ms. Deborah D. Dorot, Mrs. Beverly Fender, Mrs. Louann Ross, Ms. Linda Colier, Ms. Christine Barum, Ms. Greta Cassero and Mrs. Choe & family for their honorable visit to our Eco Home. Thank you once again everyone for interacting with our children and providing them opportunities to get new experiences in life.
NEW YEAR 2020 WISHES FROM THE CHILDREN!!

To all our Donors and Supporters:

All the respected Donors and Supporters.

Happy New Year 2020! To all of you. May this New Year ahead would bring peace, prosperity, joy and good health in your life. Thank you for supporting us and our Eco-Home. We hope we will always keep getting your love and support like this.

- From all the children at Eco Home

To our Founder & Co-founder: ‘Bibhuti Chand Thakur and Charu Chand Thakur’

Dear Sir and Ma’am,

HAPPY NEW YEAR 2020 from all of us. We hope this New Year would bring good health, happiness, joys and problem free days in your life. We are blessed to get so kind hearted peoples like you as our parents. The word ‘thank you’ is not enough to describe for what you have done for us and we are extremely sorry we have never thanked you before but at the beginning of coming New Year, we all your beloved children here would like to take this opportunity to “THANK YOU” for giving us home, giving us family and giving our future back. We hope God will bless you with a long life and we will always keeping your love and care like this.

Eco-Home

There are few things which I want to tell about,
Because of this place I feel myself very proud.

After I came here my life became new,
This place changed life of many not only few.

I will always be thankful to this place for everything it has given,
This is a beautiful place created by angel and we call it our heaven.

I live here, I grew here and here I dreamed my future,
A heavenly place like this could be found nowhere.

We have a great teacher, caring sisters and a lovely mother,
We are all equal and staying together like sisters and brothers,

Since I had arrived here, my life’s time has spent happily,
Our existence is not small and amongst few, we are a big family.

This place teaches us love, respect and discipline with care,
The day I will leave this place will be full of tears.

There are lots of children waiting outside,
Knowing 'Eco-Home' is the place for right guide.

This is a sweet home where children with nobody could come,
It will embrace them with great love because it is everyone’s.

Eco-Home.

Barsha
Mission Himalaya is running an emergency first aid Community Health Clinic nearby our Eco Home since the last 2 years. We have been supported by Dooley Intermed International and Mr. Adrian Hayes with the equipment, medical supplies and operational costs including employee’s salary. Here, everyday approx. 15-20 patients keep visiting with different health issues. We have been providing absolutely free of cost medical service to them. This year we have been supported for the salary of one employee by Dooley Intermed International and the clinic is running with great difficulty as we have very little fund to operate it. We still need fund to provide salary for one more staff, purchase medicines and purchase items for the cleaning and upkeep of the clinic.

The regular reporting from the employees working there and the inspection report of our Head office executives is clearly showing that it is very difficult for us to operate the clinic in the near future if we do not receive operational funds. So far due to support from Dooley Intermed International and Mr. Adrian Hayes this clinic has been operational but in very near future we will be facing some constraints towards the smooth functioning of the clinic.

The problem of electricity is going to be resolved very soon as we have started all the procedures to install our own electric meter provided by Nepal Electricity Authority from Mission Himalaya’s own fund.

The major problem we are facing with the clinic currently is its open compound which is giving easy access to all sorts of people with malicious intentions like alcoholics, narcotic users, thieves etc.

The incidents of breaking windows, doors, toilet mirrors, locks, basins have happened before and is continuing even till today. We have borne the expenses for the repair and maintenance so far. But with the limited fund that we have, it has become very difficult for us to continue with such repair works. It is also creating a threatening environment to our employees, esp. to our lady ANM staff. She is regularly reporting to us about the bad incidents happening there in an everyday basis. We need to construct a boundary and a gate to safe guard the clinic.

We are facing water shortage at the clinic which is leading to serious sanitation problem. We don’t have any funds to dig a well. We tried to supply water from Eco Home but due to the distance it did not work.

We would like to make an appeal to our kind supporters to join hands with us for the running of the clinic. The clinic has proved very helpful to children, women and elderly people of that area, as there are no health posts nearby.

The total estimated cost for the construction of compound and digging well would come approximately around US$ 5,000/- only.

For the support of salary of one staff for one year the cost will come to: U.S.$ 1100/-

For the purchase of medicines and other items for maintenance the cost for one year: U.S.$ 1000/-
