

## ♥ Teddy's Heart of Gold ♥

At just five years old, Teddy already knows the true meaning of love and giving. Every month, alongside his mom Jenny and his grandma Debbie Johnston, Teddy helps support children in South Africa and the Philippines through the Share the Love program.

But Teddy's story of kindness began even earlier - before he was even born - when his grandma Debbie and his mom Jenny traveled on a mission trip with Airline Ambassadors International (AAI) to the Philippines. That trip changed their hearts forever. Seeing the joy and needs of the children there, they made a promise: to keep helping, long after the trip ended. And they have - faithfully, lovingly, year after year.

Now, little Teddy has joined their mission too. With excitement and joy, he goes shopping for toys and gifts to send to the children, picking each one carefully with the thought, "I hope they love this!" It's become a family tradition - one of compassion, generosity, and hope.

Thanks to Teddy, Jenny, Debbie, and his whole family, children across the world feel remembered, loved, and celebrated. Their hands may not always be able to reach across the ocean, but their hearts do - every single day.

And it's clear: when one family shares their love, they change the world, one child at a time.

*Thank you, Teddy, Jenny, Debbie, and your whole family for your beautiful hearts and the love you so freely give.*

*Your kindness is changing lives in South Africa, the Philippines, and beyond.*

*With deepest gratitude,  
Cheryl Robinson and all of us at Airline Ambassadors International.*
